RESEARCH

Project Lead

2026 – ongoing

TÜBİTAK 2209-A Research Project · Application No 1919B012534181

The Effect of University Students' Digital Behaviors on Academic Achievement: Examining the Role of Screen Time, Sleep, Stress and Awareness through a Data Science Approach

- Accepted by TÜBİTAK and awarded a grant under the 2209-A programme; currently in the data collection phase
- Screen-time, GPA and PSQI, PSS-10, MAAS scale data to be analysed with multiple regression and mediation/moderation analysis, delivering an "Awareness Dashboard" prototype
- Four-person team · advisor Dr. Habibe Aktay

SELECTED PROJECTS

Işık CampusOS

Capstone project

2026

Java · Spring Boot · React · Apache Kafka · PostgreSQL · Docker

github.com/tolguner/IsikCampusOS

Aims to bring the scattered parts of campus life (clubs and events, facility booking, food ordering, ride sharing) into one platform students use with a single account.

- Microservice architecture: centralized JWT validation at the API gateway, event-driven service communication via Kafka, database per service

Veterinary Management System

Team project · project coordinator

2025

Spring Boot · React · MySQL · JWT

github.com/tolguner/Veterinary-Management-System

Lets a veterinary clinic manage patient, appointment and treatment records in one system.

- Project coordinator in a five-person team; JWT-secured REST API and React interface

Quick-Gain Perception and Effort in Games of Chance: A Statistical Analysis and Modelling

Data science term project

2025

Python · pandas · statsmodels · Jupyter

github.com/tolguner/Hizli-Kazanc-Algisi-Analizi

Survey-based statistical study of how perceived quick gains relate to belief in effort.

- Reliability, regression and mediation analysis on data from 153 participants; four-person team, 44-page research report
