

Tolga Olguner

Management Information Systems Student

Phone: +90 536 742 34 44 · Email: tolgaolguner@gmail.com · Istanbul / Bursa, Turkey
Web: tolguner.me · GitHub: github.com/tolguner · LinkedIn: linkedin.com/in/tolguner

Final-year Management Information Systems student at Işık University (GPA 3.43/4). Builds web applications with Spring Boot and React; project lead of a TÜBİTAK 2209-A funded research project. Three years as a club president and hands-on corporate event organization experience combine technical skills with communication, team coordination and organizational ability.

EDUCATION

B.A. Management Information Systems

2021 – 2026

Işık University, Istanbul

GPA 3.43 / 4.00 · Full scholarship (100%)

EXPERIENCE

Work-Study Student

May 2025 – Aug 2026

Corporate Communications Directorate, Işık University

- Took part in the university's corporate events and coordinated the student staff team
- Worked on the Promotion Team during the 2025 and 2026 Preference and Promotion Days; responsible for running the team and the event

University Marketing Representative

Oct 2025 – Jul 2026

Unicourse

- Ran on-campus marketing and outreach activities targeting the student community as campus representative
- Organized the training materials the company needed

VOLUNTEER EXPERIENCE

Club President IT&MIS Club, Işık University

Oct 2023 – Jun 2026

Organized talks, summits, hackathons, career fairs, company visits and mock interviews

Founding Board Member Işık Run Club, Işık University

Apr 2026 – Jun 2026

Planned runs, trekking, outdoor sports and social events

RESEARCH

TÜBİTAK 2209-A Research Project Project Lead · 4-Person Team

2026 – ongoing

The Effect of University Students' Digital Behaviors on Academic Achievement: Examining the Role of Screen Time, Sleep, Stress and Awareness through a Data Science Approach · Application No 1919B012534181

- Accepted by TÜBİTAK and awarded a grant under the 2209-A programme; currently in the data collection phase
- Examines screen-time and GPA data collected via the PSQI, PSS-10 and MAAS scales through multiple regression and mediation/moderation analysis, targeting an "Awareness Dashboard" prototype as output
- Advisor: Dr. Habibe Aktay

SELECTED PROJECTS

Işık CampusOS Capstone Project

2026

Java · Spring Boot · React · Apache Kafka · PostgreSQL · Docker

github.com/tolguner/IsikCampusOS

Aims to bring the scattered parts of campus life (clubs and events, facility booking, food ordering, ride sharing) into one platform students use with a single account.

- Microservice architecture: centralized JWT validation at the API gateway, event-driven service communication via Kafka, database per service

tolguner.me Personal Portfolio Site

2026

Next.js · TypeScript · PostgreSQL · Supabase · Three.js · Vercel

tolguner.me

Presents my background, projects and research through a scroll-driven 3D experience. Content lives in Postgres and is edited through a login-protected admin panel; the site is updated without code changes.

- Custom Three.js scene with GSAP ScrollTrigger-driven transition animations
- Admin panel protected by row-level security and TOTP two-factor authentication; draft-to-publish flow, revision history and rollback

Veterinary Management System Project Lead · 5-Person Team

2025

Spring Boot · React · MySQL · JWT

github.com/tolguner/Veterinary-Management-System

Lets a veterinary clinic manage patient, appointment and treatment records in one system.

- JWT-secured REST API and React interface

Quick-Gain Perception and Effort in Games of Chance: A Statistical Analysis and Modelling Project Lead · 4-Person Team

2025

Python · pandas · statsmodels · Jupyter

github.com/tolguner/Hizli-Kazanc-Algisi-Analizi

Examines the relationship between perceived quick gains and belief in effort using survey-based statistical methods.

- Reliability, regression and mediation analysis on data from 153 participants

SKILLS

TECHNICAL SKILLS

Languages	Java · TypeScript · Python · Move
Backend	Spring Boot · REST APIs · JWT · Kafka
Frontend	React · Next.js · Tailwind CSS · JavaFX
